1 Background

The Centers for Medicare & Medicaid Services (CMS) has implemented, through provisions of the American Recovery and Reinvestment Act of 2009 (ARRA), incentive payments to eligible professionals (EP) and eligible hospitals (EH), including critical access hospitals (CAHs), participating in Medicare and Medicaid programs that are meaningful users of certified Electronic Health Records (EHR) technology. The incentive payments are not a reimbursement, but are intended to encourage EPs and EHs to adopt, implement, or upgrade certified EHR technology and use it in a meaningful manner.

The use of a certified EHR system is required to qualify for incentive payments. The Office of the National Coordinator for Health Information Technology (ONC) has issued rules defining certified EHR systems and has identified entities that may certify systems. More information about this process is available at <http://www.healthit.hhs.gov>.

Goals for the national program include: 1) enhance care coordination and patient safety; 2) reduce paperwork and improve efficiencies; 3) facilitate electronic information sharing across providers, payers, and state lines, and 4) enable data sharing using state Health Information Exchange (HIE) and the National Health Information Network (NHIN). Achieving these goals will improve health outcomes, facilitate access, simplify care, and reduce costs of health care nationwide.

Wyoming Medicaid will work closely with federal and state partners to ensure the Wyoming Medicaid EHR Incentive Program fits into the overall strategic plan for the Wyoming Health Information Exchange, thereby advancing the national and Wyoming goals for HIE.

Both EPs and EHs are required to begin by registering at the national level with the Medicare and Medicaid registration and attestation system (also referred to as the CMS Registration Module). CMS' official Web site for the Medicare and Medicaid EHR Incentive Programs can be found at <http://www.cms.gov/EHRIncentivePrograms/>. The site provides both general and detailed information on the programs which includes tabs on the path to payment, eligibility, meaningful use, certified EHR technology, and frequently asked questions.

2 Introduction

The Wyoming Medicaid Electronic Health Record (EHR) Incentive Program will provide incentive payments to eligible professionals as they adopt, implement, upgrade or demonstrate meaningful use of certified EHR technology.

A Regional Extension Centers (RECs) has been designated to provide technical assistance to Wyoming EH's and EP's. The RECs provide a full range of assistance related to EHR selection and training and are listed below:

Wyoming Regional Extension Center

PO Box 2242

Glenrock, WY 82637

Phone: 307-436-8733 or 877-810-6248

Fax: 307-637-8163

Revisions:

Original - 4/8/2016

3 Eligibility

While EPs can begin the program in Calendar Year (CY) 2011, they must begin the program no later than CY 2016.

The first tier of provider eligibility for the Wyoming Medicaid EHR Incentive Program is based on provider type and specialty. If the provider type and specialty for the submitting provider in the WY MMIS provider data store does not correspond to the provider types and specialties approved for participation in the Wyoming Medicaid EHR Incentive Program, the provider will receive an error message with a disqualification statement.

At this time, CMS has determined that the following providers are potentially eligible to enroll in the Wyoming Medicaid EHR Incentive Program:

Physicians (primarily doctors of medicine and doctors of osteopathy)

Nurse Practitioner

Certified Nurse Midwife

Dentist

Physician Assistant who furnishes services in a Federally Qualified Health Center (FQHC) or Rural Health Center (RHC) that is led by a Physician Assistant. An FQHC or RHC is considered to be PA led in the following instances:

- The PA is the primary provider in a clinic (e.g., part time physician and full time PA in the clinic)
- The PA is the clinical or medical director at a clinical site of the practice
- The PA is the owner

Additional requirements for the EP

To qualify for an EHR incentive payment for each year the EP seeks the incentive payment, the EP must not be hospital-based or meet the exclusion for hospital-based and must:

1. Meet one of the following patient volume criteria:
 - a. Beginning in program year 2013 patient volume counts must be from at least one service location that has certified EHR technology.
 - b. Have a minimum of 30 percent patient volume attributable to individuals receiving TXIX Medicaid funded services (Please note beginning in program year 2013 this changed to have a minimum 30 percent patient volume attributable to individuals *enrolled in a Medicaid program*); **or**
 - c. Have a minimum 20 percent patient volume attributable to individuals receiving TXIX Medicaid funded services, **and** be a pediatrician (Please note beginning in program year 2013 have a minimum 20 percent patient volume attributable to individuals *enrolled in a Medicaid program* and be a pediatrician); **or**
 - d. Practice predominantly in a FQHC, RHC, or IHS and have a minimum 30 percent patient volume attributable to needy individuals.

2. Have no sanctions and/or exclusions.

An individual EP may choose to receive the incentive him/herself or assign it to a Medicaid contracted clinic or group to which he is associated. The tax identification number (TIN) of the individual or entity receiving the incentive payment is required when registering with CMS and must match a TIN linked to the individual provider in the Wyoming EHR Incentive system.

Note also that some provider types who are eligible for the Medicare program, such as podiatrists, optometrists, and chiropractors, are not currently eligible for the Wyoming Medicaid EHR Incentive Program. Wyoming does not include optometrist because they do not meet the Wyoming State Plan for Medicaid Services definition of Physician Services (“Physician services include physicians, certified pediatric and family nurse practitioners, nurse midwives, FQHCs, RHCs, and physician assistants.”) Optometrists are also excluded from the definition of “Physician” in the Social Security Act.

Qualifying Providers by Type and Patient Volume

Program Entity	Percent Patient Volume over Minimum 90-days	
Physicians	30%	Or the Medicaid EP practices predominantly in an IHS, FQHC or RHC -30% “needy individual” patient volume threshold
Pediatricians	20%	
Dentists	30%	
Optometrist	30%	
Physician Assistants when practicing at an FQHC/RHC led by a physician assistant	30%	
Nurse Practitioner	30%	

3.1 Out-of-State Providers

The Wyoming Medicaid EHR Incentive Program welcomes any out-of-state provider to participate in this program as long as they have at least one physical location in Wyoming. Wyoming must be the only state they are requesting an incentive payment from during that participation year. For auditing purposes, out-of-state providers must make available any and all records, claims data, and other data pertinent to an audit by either the Wyoming program or CMS. Records must be maintained as applicable by law in the state of practice or Wyoming, whichever is deemed longer.

3.2 Establishing Patient Volume

A Wyoming Medicaid provider must annually meet patient volume requirements of Wyoming's Medicaid EHR Incentive Program as established through the state's CMS approved State Medicaid Health IT Plan (SMHP). The patient funding source identifies who can be counted in the patient volume: Title XIX (TXIX) – Medicaid and Title XXI (TXXI) – CHIP. All EPs (except EPs predominantly practicing in an FQHC/RHC/IHS) will calculate patient volume based on TXIX Medicaid and out-of-state Medicaid patients. The EHR statute allows for an EP practicing predominantly in an IHS, FQHC or RHC to consider CHIP patients under the needy individual patient volume requirements.

3.2.1 Patient Encounters Methodology

EPs (except those practicing predominantly in an FQHC/RHC) – to calculate TXIX Medicaid patient volume, an EP must divide:

- ✓ The total TXIX Medicaid or out-of-state Medicaid patient encounters in any representative, continuous 90-day period in the preceding calendar year; by
- ✓ The total patient encounters in the same 90-day period.

EPs Practicing Predominantly in an IHS/FQHC/RHC – to calculate needy individual patient volume, an EP must divide:

- ✓ The total needy individual patient encounters in any representative, continuous 90-day period in the preceding calendar year; by
- ✓ The total patient encounters in the same 90-day period.

3.2.2 Definition of an Eligible Professional Encounter

For purposes of calculating EP patient volume, an encounter is defined as services rendered on any one day to an individual where Wyoming or another State's Medicaid program paid for:

Services rendered on any one day to an individual where Medicaid or a Medicaid demonstration project under section 1115 of the Act paid for part or all of the service;

Services rendered on any one day to an individual where Medicaid or a Medicaid demonstration project under section 1115 of the Act paid all or part of their premiums, co-payments, and/or cost-sharing

Beginning in program year 2013 the definition of an Eligible Professional Encounter was updated to be the following:

For purposes of calculating EP patient volume, a Medicaid encounter means services rendered to an individual on any one day where:

Medicaid (or a Medicaid demonstration project approved under section 1115 of the Act) paid for part or all of the service;

Medicaid (or a Medicaid demonstration project approved under section 1115 of the Act) paid all or part of the individual's premiums, co-payments, and cost-sharing;

The individual was enrolled in a Medicaid program (or a Medicaid demonstration project approved under section 1115 of the Act) at the time the billable service was provided

3.2.3 Definition of a Needy Individual Encounter

For purposes of calculating patient volume for an EP practicing predominantly in an IHS/FQHC/RHC, a needy individual encounter is defined as services rendered on any one day to an individual where medical services were:

Medicaid or CHIP (or a Medicaid or CHIP demonstration project approved under section 1115 of the Act) paid for part or all of the service;

Medicaid or CHIP (or a Medicaid or CHIP demonstration project approved under section 1115 of the Act) paid all or part of the individual's premiums, co-payments, or cost-sharing; or

Services rendered to an individual on any one day on a sliding scale or that were uncompensated (excluding bad debt).

Beginning in program year 2013 the definition of a needy individual encounter was updated to be the following:

For purposes of calculating EP patient volume, a needy patient encounter means services rendered to an individual on any 1 day if any of the following occur:

Medicaid or CHIP (or a Medicaid or CHIP demonstration project approved under section 1115 of the Act) paid for part or all of the service;

Medicaid or CHIP (or a Medicaid or CHIP demonstration project approved under section 1115 of the Act) paid all or part of the individual's premiums, co-payments, or cost-sharing;

The individual was enrolled in a Medicaid program (or a Medicaid demonstration project approved under section 1115 of the Act) at the time the billable service was provided; **or**

The services were furnished at no cost (excluding bad debt) or the services were paid for at a reduced cost based on a sliding scale determined by the individual's ability to pay.

3.2.4 Group practices

Clinics or group practices will be permitted to calculate patient volume at the group practice/clinic level, but only in accordance with all of the following limitations:

- The clinic or group practice's patient volume is appropriate as a patient volume methodology calculation for the EP;
- There is an auditable data source to support the clinic's or group practice's patient volume determination;

EP Meaningful Use Modified Stage 2 User Manual for PY 2015

- All EPs in the group practice or clinic must use the same methodology for the payment year;
- The clinic or group practice uses the entire practice or clinic's patient volume and does not limit patient volume in any way; and
- If an EP works inside and outside of the clinic or practice, then the patient volume calculation includes only those encounters associated with the clinic or group practice, and not the EP's outside encounters

4 Payment Methodology for EPs

The maximum incentive payment an EP could receive from Wyoming Medicaid equals \$63,750, over a period of six years, or \$42,500 for pediatricians with a 20-29 percent Medicaid patient volume as shown below.

Provider	EP	EP-Pediatrician
Patient Volume	30 Percent	20-29 Percent
Year 1	\$21,250	\$14,166.67
Year 2	8,500	5,666.67
Year 3	8,500	5,666.67
Year 4	8,500	5,666.67
Year 5	8,500	5,666.67
Year 6	8,500	5,666.65
Total Incentive Payment	\$63,750	\$42,500

Since pediatricians are qualified to participate in the Wyoming Medicaid EHR incentive program as physicians, and therefore classified as EPs, they may qualify to receive the full incentive if the pediatrician can demonstrate that they meet the minimum 30 percent Medicaid patient volume requirements.

4.1 Payments for Eligible Professionals

EP payments will be made in alignment with the calendar year and an EP must begin receiving incentive payments no later than CY 2016. EPs will assign the incentive payments to a tax ID (TIN) in the CMS Registration Module. The TIN must be associated in the Wyoming MMIS system with either the EP him/herself or a group or clinic with whom the EP is affiliated. EPs who assign payment to themselves (and not a group or clinic) will be required to provide Wyoming Medicaid with updated information. Each EP must have a current Wyoming Medicaid contract and be contracted for at least 90 days.

The Wyoming Medicaid EHR Incentive program does **not** include a future reimbursement rate reduction for non-participating Medicaid providers. (Medicare requires providers to implement and meaningfully use certified EHR technology by 2015 to avoid a Medicare reimbursement rate reduction.) For each year a provider wishes to receive a Medicaid incentive payment, determination must be made that he/she was a meaningful user of EHR technology during that year. Medicaid EPs are not required to participate on a consecutive annual basis, however, the last year an EP may begin receiving payments is 2016, and the last year the EP can receive payments is 2021.

Currently, all providers are required to submit a valid NPI as a condition of Wyoming Medicaid provider enrollment. Each EP will be enrolled as a Medicaid provider and will therefore, without any change in process or system modification, meet the requirement to receive an NPI. Wyoming Medicaid performs a manual NPPES search to validate NPIs during the enrollment process.

In the event Wyoming Medicaid determines money has been paid inappropriately, incentive funds will be recouped and refunded to CMS.

EP Meaningful Use Modified Stage 2 User Manual for PY 2015

The timeline for receiving incentive payments is illustrated below:

	CY 2011	CY 2012	CY 2013	CY 2014	CY 2015	CY 2016
CY 2011	\$21,250					
CY 2012	\$8,500	\$21,250				
CY 2013	\$8,500	\$8,500	\$21,250			
CY 2014	\$8,500	\$8,500	\$8,500	\$21,250		
CY 2015	\$8,500	\$8,500	\$8,500	\$8,500	\$21,250	
CY 2016	\$8,500	\$8,500	\$8,500	\$8,500	\$8,500	\$21,250
CY 2017		\$8,500	\$8,500	\$8,500	\$8,500	\$8,500
CY 2018			\$8,500	\$8,500	\$8,500	\$8,500
CY 2019				\$8,500	\$8,500	\$8,500
CY 2020					\$8,500	\$8,500
CY 2021						\$8,500
TOTAL	\$63,750	\$63,750	\$63,750	\$63,750	\$63,750	\$63,750

5 Provider Registration

If this is your second year with the EHR incentive program then there is no need to register. You may log in directly to the Wyoming SLR to attest for Meaningful Use using the link <https://wyslr.com/> .

If this is your first year with the EHR Incentive program then EPs are required to begin by registering at the national level with the Medicare and Medicaid registration and attestation system (also referred to as the CMS Registration Module). CMS' official Web site for the Medicare and Medicaid EHR Incentive Programs can be found at <http://www.cms.gov/EHRIncentivePrograms/>. Providers must provide their name, NPI, business address, phone number, and the tax payer ID number (TIN) of the entity receiving the payment. EPs may choose to receive the incentive payment themselves or assign them to a clinic or group to which they belong.

EPs must select the Medicare or Medicaid's incentive program (a provider may switch from one to the other once during the incentive program prior to 2015). If Medicaid is selected, the provider must choose only one state (EPs may switch states annually). Providers must revisit the CMS Registration Module to make any changes to their information and/or choices, such as changing the program from which they want to receive their incentive payment. After the initial registration, the provider does not need to return to the CMS Registration Module before seeking annual payments unless information needs to be updated.

The CMS Registration Module will assign the provider a CMS Registration Number and electronically notify Wyoming Medicaid of a provider's choice to access Wyoming's Medicaid EHR Incentive Program for payment. The CMS Registration Number will be needed to complete the attestation in the Wyoming SLR system. On receipt of the registration transactions from CMS, two basic validations take place at the state level:

- 1) Validate the NPI in the transaction is on file in the MMIS system, and
- 2) Validate that the provider is a provider with Wyoming Medicaid. If either of these conditions is not met, a message will be automatically sent back to the CMS Registration Module indicating the provider is not eligible. Providers may check back at the CMS Registration Module to determine if the registration has been accepted.

Once payment is disbursed to the eligible TIN, CMS will be notified by Wyoming Medicaid that a payment has been made.

5.1 Provider Attestation Process and Validation

Wyoming Medicaid will utilize the secure Wyoming SLR system to house the attestation system. If an eligible provider registers at CMS and does not receive an email with the link to the attestation system within two business days, assistance will be available by contacting the Wyoming Medicaid Electronic Health Record Incentive Program office.

Following is a description, by eligible provider type, of the information that a provider will have to report or attest to during the process.

1. After registering for the incentive program with the CMS Registration Module (at <http://www.cms.gov/EHRIncentivePrograms/>), the EP will be asked to provide their NPI and CMS-assigned Registration Identifier.
2. The EP will then be asked to view the information that will be displayed with the pre-populated data received from CMS (if the provider entry does not match, an error message with instructions will be returned).
3. EPs will then enter two categories of data to complete the Eligibility Provider Details screen including 1) patient volume characteristics and 2) EHR details.
4. The EP will be asked to attest to:
 - Assigning the incentive payment to a specific TIN (only asked if applicable); provider and TIN to which the payment was assigned at CMS will be displayed;
 - Not working as a hospital based professional (this will be verified by through claims analysis)*;
 - Not applying for an incentive payment from another state or Medicare;
 - Not applying for an incentive payment under another Wyoming Medicaid ID; and
 - Adoption, implementation or upgrade of certified EHR technology.
5. The EP will be asked to electronically sign the amendment.
 - The provider enters his/her initials and NPI on the Attestation Screen (there is a place for an agent or staff member of the provider to so identify).
 - The person filling out the form should enter his or her name.

6 Incentive Payments

Wyoming Medicaid plans to use the Supplemental Payment functionality in the Wyoming WOLFS system to set up financial transactions for incentive payments. Providers need to ensure they are enrolled in the system, in order to receive payments. Specific accounting codes will also be required for the transactions to enable Wyoming Medicaid to report the funds in the CMS-64 report. Different codes will be needed for each payment year.

Wyoming will ensure all reporting requirements and modifications are made to correctly report expenditures, attestation information, and approval information. Wyoming Medicaid will also make the necessary changes to the CMS-64 reporting to add the additional line item payment and administrative information.

Upon completion of the attestation process, including submission of the electronic attestation, receipt of required documentation and validation by Wyoming Medicaid, an incentive payment can be approved.

7 Program Integrity

Wyoming Medicaid will be conducting regular reviews of attestations and incentive payments. These reviews will be selected as part of the current audit selection process including risk assessment, receipt of a complaint or incorporation into reviews selected for other objectives. Providers should be sure to keep their supporting documentation.

7.1 Administrative Appeals

You may appeal the determination made by Wyoming Medicaid on your incentive payment application by sending a Formal Letter of Appeal to the address below within 30 days of the determination date of notification. This formal written notification must include a detailed explanation of why the EP or EH deems a wrong determination made by the Wyoming Medicaid EHR Incentive Program. Any supporting documentation to the appeal should be included with the Letter of Appeal.

Division of Program Integrity
Department for Medicaid Services
6101 Yellowstone, Suite 210
Cheyenne, WY 82002

8 Registration (Eligible Providers)

Eligible providers will be required to provide details including patient volume characteristics, EHR details, upload requested documentation, and electronically sign the attestation (more details follow in this manual).

After registering with CMS at <http://www.cms.gov/EHRIncentivePrograms/>, the provider then begins the Wyoming Medicaid EHR Incentive Program registration process by accessing the Wyoming SLR system at <https://wysl.com/> (sign-in screen shown below).

8.1 Eligible Provider Sign-in Screen

The screenshot shows a web browser window displaying the sign-in screen for the Wyoming Medicaid EHR Incentive Program. The page header includes the Wyoming Department of Health logo and navigation links for Wyoming.gov, Citizen, Business, Government, and Visitor. The main content area is titled "WY Medicaid EHR Incentive Program" and contains the following text:

New users: If you have not received an EHR Incentive Program payment from Wyoming Medicaid, you first have to register at the [CMS Web Site](#). After approximately 48 hours after successfully registering at the CMS level, you will receive an e-mail from Wyoming Medicaid indicating that you are able to complete your application on this site.

Return Users: If you have already registered on the CMS site and received an EHR Incentive Program payment from Wyoming Medicaid, you do not need to visit the CMS again. Please proceed with your year two attestation by entering your NPI and CMS Registration Identifier.

Please enter your NPI

Please enter the CMS assigned Registration Identifier

For SLR and Non-SLR participants who want to enter their CQM data for the Wyoming Quality Care Coordination Program click [here](#).

All rights reserved.

The provider will enter the NPI registered on the CMS Registration Module and the CMS-assigned Registration Identifier that was returned by CMS.

If the data submitted by the provider matches the data received from CMS, the CMS/NLR Provider Demographics Screen will display with the pre-populated data received from the CMS Registration Module. If the provider entry does not match, an error message with instructions will be returned.

Wyoming.gov | Citizen | Business | Government | Visitor

Wyoming Department of Health
Healthcare Financing
WY MEDICAID EHR INCENTIVE PAYMENTS

Provider Eligibility Details (Step 2 of 5) (Year 2 Attestation) Logout

All * fields are required fields.

Patient Volume:

- Please indicate if your patient volume was calculated at a clinic or practice level for all Eligible professionals:
- If yes, please enter the NPI of the clinic or group:
- For which program year are you applying? *
- Select the starting date of the 90-day period to calculate * (mm/dd/yy)
- Medicaid encounter volume percentage: *
- Medicaid patient encounters during this period: *
- Total patient encounters during this period: *
- Medicaid patient volume percentage: 0 %

EHR Details:

- Enter the CMS EHR Certification ID of your EHR: * [What is this?](#)
- Indicate the status of your EHR: * Meaningful User

EPs must enter two categories of data to complete the Eligibility Provider Details screen including patient volume characteristics and EHR details. The Provider will also have the option to change their mailing address for EHR payments. Providers will see the following data on the screen:

Patient Volume

- Please indicate if your patient volume was calculated at a clinic / practice level or for the eligible professional only.
- If at the clinic, please enter the NPI of the clinic or group.
- Select the program year you wish to attest. This should be either the current year or it can be the prior year if the current date is on or before March 31st.
- Select the starting date of the 90-day period to calculate Medicaid encounter volume percentage.
- Enter the Medicaid patient encounters during this period.
- Enter the total patient encounters during this period.
- Medicaid patient volume percentage (calculated).

EHR Details

- Enter the CMS EHR Certification ID of your HER.
- Indicate the Status of your EHR – Choices:
 - (A) Adopt - Acquire, purchase, or secure access to certified EHR technology.
 - (I) Implement - Install or commence utilization of certified EHR technology capable of meeting meaningful use requirements.
 - (U) Upgrade - Expand the available functionality of certified EHR technology capable of meeting meaningful use requirements at the practice site, including staffing, maintenance, and training, or upgrade from existing EHR technology to certified EHR technology per the ONC EHR certification criteria.

- Meaningful User – currently meaningfully using certified EHR technology and are prepared to attest to Meaningful Use and Clinical Quality Measures.

Please note EHR Status options for Adopt, Implement, or Upgrade is only available for the first payment year. All subsequent years will only display Meaningful User.

Navigation:

Previous Button – Takes the EP to the previous screen

Next Button – Saves the data entered and takes the EP to the next attestation screen

Save Button – Saves the EP's data

Cancel Button – Removes the data that has been entered by the EP

8.3.1 Establishing Patient volume

All EPs have patient volume thresholds to meet to be eligible for incentive payments. Claims data from the Wyoming MMIS will be used to verify the reasonableness of patient volume attested to by EPs.

EPs are required to have a minimum of 30 percent Medicaid for all patient encounters over any continuous 90-day period within the most recent calendar year prior to registering. There are two exceptions:

1. Pediatricians qualify if they have at least 20 percent Medicaid patient volume for all patient encounters over any continuous 90-day period within the most recent calendar year prior to registering;
2. EPs practicing predominantly in an IHS, FQHC, or RHC must have a minimum of 30 percent patient volume attributable to “needy individuals” for all patient encounters over any continuous 90-day period within the most recent calendar year prior to registering.

Needy individuals are defined as those:

- Receiving Medical assistance from Medicaid or CHIP
- Furnished uncompensated care by the provider (excluding bad debt)
- Furnished services at either no cost or reduced cost based on a sliding scale determined by the individual's ability to pay

Wyoming Medicaid defines “encounter” as a service provided to one patient by one provider on one day.

Volume thresholds are calculated using, as the numerator, the EP's total number of Medicaid member encounters for the 90-day period and the denominator as all patient encounters for the same EP over the same 90-day period.

8.4 Provider Service Locations Screen

After entering the provider eligibility details, EPs are required to enter all service locations for which they practice. This screen was added to satisfy a new requirement beginning with program year 2013 that was established under 42 CFR 495.304 that states that at least one clinical location used in the calculation of patient volume must have a Certified EHR Technology (CEHRT) during the program year for which the eligible professional attests to having adopted, implemented, or upgraded to CEHRT, or attests they are meaningful EHR user.

After the EP has completed their editing of the service location they will need to select one of the following options under the edit column:

Update – This will accept the changes made to the service location

Cancel – This will cancel the changes made to the service location and return to the original entry.

Navigation:

Previous Button – Takes the EP to the previous screen

Next Button – Saves the data entered and takes the EP to the next attestation screen

Save Button – Saves the EP's data, please note: location data must be added, updated or deleted within the navigation links/buttons. The Save button will not save an update made prior to clicking on the update button on the grid.

Cancel Button – Removes the data that has been entered by the EP

8.5 Meaningful Use Questionnaire Screen

After entering the provider service locations, EPs who have selected Meaningful Use will be directed to the Meaningful Use Questionnaire screen to enter additional data prior to entering their measures.

The screenshot shows the 'Meaningful Use Questionnaire' screen for 'Year 3 Attestation / Program Year 2015'. The page header includes the Wyoming Department of Health logo and navigation links. A left sidebar contains a menu with items like 'CMS/NR', 'Eligibility Details', and 'Additional Resources'. The main content area is titled 'Meaningful Use Questionnaire' and contains the following fields and instructions:

- EHR Reporting Period:** Start Date (1/1/2015) and End Date (12/31/2015).
- CQM Reporting Period:** Start Date (1/1/2015) and End Date (12/31/2015).
- Encounter Counts:** Out-patient encounters at practice locations equipped with CRRS (4) and total out-patient encounters at all practice locations (8).
- Reporting Period Option:** A radio button question: 'Is the reporting period for your CQM submission the same period as your EHR Reporting period listed above?' with 'Yes' and 'No' options.

Buttons for 'Previous', 'Next', 'Save', and 'Cancel' are located at the bottom of the form. Footer text includes 'Contact Us | Privacy Policy | About Wyoming' and 'Copyright © 2011 State of Wyoming. All rights reserved.'

The following fields are required to continue with the attestation:

- **EHR Reporting Period Start Date** – This is the starting date for the period of time you are reporting your Meaningful Use Measure data. (This date should be within the program year being attested)
- **EHR Reporting Period End Date** – This is the end date for the period of time you are reporting your Meaningful Use Measure data.
 - For the first year of reporting Meaningful Use EPs are required to report on a continuous 90 day period within the program year being attested.
 - For the second year of reporting Meaningful Use an entire year of reporting will be required. (*Except for program year 2015, providers may attest to 90 days for their second year of MU due to the updated EHR certification criteria*)
- **CQM Reporting Period Option** – EPs may choose to report their Clinical Quality Measures for a different time period than their Meaningful Use Measures. If the EP wishes to take this option then they will need to respond to the question “Is the reporting period for your CQM submission the same period as your EHR Reporting period listed above:” as “No” and the screen will allow for entry of the following fields:
 - **CQM Reporting Start Date** - This is the starting date for the period of time you are reporting your Clinical Quality Measure data. (This date should be within the program year being attested)
 - **CQM Reporting End Date** - This is the end date for the period of time you are reporting your Clinical Quality Measure data.
 - The CQM Reporting Period option is only applicable for program

years that allows a 90 day EHR reporting period. Once the EP is required to report a full year EHR reporting period the option will no longer be displayed.

- The CQM Reporting Period must be at least 90 days and can be up to a full year reporting period within the program year selected.
- **Enter the total number of out-patient encounters at practice locations equipped with CEHRT for the EHR reporting period:** – This should be the count of all the patients you have seen in locations that have Certified EHR (CEHRT) during the EHR reporting period entered above.
- **Enter the total number of out-patient encounters at all practice locations for the EHR reporting period:** – This should be the count of all the patients you have seen in all service locations during the EHR reporting period entered above.

*All fields on this screen must be entered to continue with your attestation.

9 EP Requirements for Meaningful Use Measures for Program year 2015

CMS added Modified Stage 2 Meaningful Use (MU) requirements effective for Program Year 2015 within the Medicare and Medicaid Programs; Electronic Health Record Incentive Program—Stage 3 and Modifications to Meaningful Use in 2015 through 2017 Final Rule. This manual will cover the instructions for attesting to program year 2015 for EPs who are scheduled to be in Stage 1 or Stage 2 within the 2015 program year.

EHR Reporting Period

- All EPs may attest to a 90 day reporting period regardless of the meaningful use year or stage being attested.

Meaningful Use Measure Changes Overview

- All providers are required to attest to a single set of objectives and measures (Modified Stage 2). This replaces the core and menu objectives structure of previous stages.
- There are 10 Meaningful Use Objectives, including one consolidated public health reporting objective.
- In 2015, all providers must attest to objectives and measures using EHR technology certified to the 2014 Edition.
- To assist providers who may have already started working on meaningful use in 2015, there are alternate exclusions and specifications within individual objectives for providers. These include:
 - Allowing providers who were previously scheduled to be in a Stage 1 EHR reporting period for 2015 to use a lower threshold for certain measures.
 - Allowing providers to exclude for Stage 2 measures in 2015 for which there is no Stage 1 equivalent.
 - Allowing providers to exclude Modified Stage 2 measures in 2015 where a previous menu measure is now a requirement.

Objective 10 - Public Health Reporting Overview

- EPs will not be permitted to count an exclusion toward the minimum of 1 Public Health Reporting Measure for which they are required to report.
 - If a provider cannot meet 1 public health reporting measures without claiming an exclusion they should select all public health reporting measures to report on all 3 public health reporting measures to meet meaningful use by either meeting the measure or the exclusion to the measures.

EP must attest to at least 9 of 64 Clinical Quality Measures covering at least 3 National Quality Strategy (NQS) domains

- EPs are expected to select the CQMs that best apply to their scope of practice and/or unique patient population.

EP Meaningful Use Modified Stage 2 User Manual for PY 2015

- CMS does not require the submission of a core set of CQMs, but identify two recommended core sets; one for adults and one for children, that CMS encourages EPs to report to the extent those CQMs are applicable to an EP's scope of practice and patient population.
- The EP must report their CQMs for which there is patient data for up to 9 CQMs and report any remaining CQMs as "zero denominators" as displayed by the EP's CEHRT to ensure they have selected CQMs from at least 3 NQS domains.
- If there are no CQMs applicable to the EP's scope of practice and patient population, EPs must still report 9 CQMs that cover at least 3 NQS domains even if zero is the result in either the numerator or the denominator of the measure.
- If all applicable CQMs have a value of zero from their CEHRT, then EPs must report any 9 CQMs out of the total 64 covering at least 3 NQS domains.

For additional information on Meaningful Use Measures Please see the following CMS Web sites below:

Meaningful Use Information for Program Year 2015

<https://www.cms.gov/Regulations-and-Guidance/Legislation/EHRIncentivePrograms/2015ProgramRequirements.html>

Clinical Quality Measure Information

<https://www.cms.gov/Regulations-and-Guidance/Legislation/EHRIncentivePrograms/ClinicalQualityMeasures.html>

Measure Screen Tips: If the page seems to be cutting off words on the measure then do the following steps:

- While holding down the 'Ctrl' key press the '-' key until you can see the entire screen.

9.1 Meaningful Use Measure Menu Screen

The menu screen will only allow the user to select a group of measures as they are available. For example, once the Meaningful Use Core Measures are completed, the Meaningful Use Menu Measures will be active to select.

Navigation:

Meaningful Use Measures Link – Takes the EP to the first screen of the Meaningful Use Measures, active link

Public Health Measures Link - Takes the EP to the Public Health Measure Selection Screen, only active after the first 9 MU Measures are completed.

Clinical Quality Measures Link – Takes the EP to the CQM selection page.

Previous – Take the EP to the previous screen

Next – Takes the EP to the first Meaningful Use Measure screen

9.1.1 Meaningful Use Measure 1 Screen - Protected Patient Health Information

Measure 1 to report on the Protected Patient Health Information measure does not offer any alternates for EPs who would be reporting for Stage 1 MU in program year 2015.

Protected Patient Health Information

Objective: Protect electronic protected health information (ePHI) created or maintained by the CEHRT through the implementation of appropriate technical capabilities.

Measure: Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of data stored in Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the EP's risk management process.

Complete the following information:

* Have you conducted or reviewed your security risk analysis and if necessary implemented security updates and corrected identified security deficiencies per the requirements of this measure?

Yes No

Previous Next Save Cancel

All fields must be completed before the EP will be allowed to save and continue to the next measure.

The following details other requirements of this screen:

- Please select Yes or No

Please note that selecting 'Previous' prior to saving will result in the data on the current screen not being saved. However, if the user clicks on the 'Next' button without clicking on the 'Save' button the data entered on the screen will be saved.

Navigation:

Questionnaire 2 of 10

(*) Red asterisk indicates a required field.

Clinical Decision Support

Objective: Use clinical decision support to improve performance on high-priority health conditions.

Measure: In order for EP to meet the objective they must satisfy both of the following measures:

Measure 1: Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an EP's scope of practice, the clinical decision support interventions must be related to high-priority health conditions.

Measure 2: The EP has enabled and implemented the functionality for drug-drug and drug allergy interaction checks for the entire EHR reporting period.

Complete the following:

Measure 1: Clinical Decision Support

*Have you implemented five clinical decision support interventions related to four or more clinical quality measures or other high priority health conditions for your scope of practice at a relevant point in patient care for the entire EHR reporting period?

Yes No

*List five clinical decision support interventions you implemented below:

1: CDS 1
2: CDS 2
3: CDS 3
4: CDS 4
5: CDS 5

Measure 2: Drug Interaction Checks

Exclusion: Any EP who writes fewer than 100 medication orders during the EHR reporting period may be excluded from the second measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

*Have you enabled and implemented the functionality for drug-drug and drug allergy interaction checks for the entire EHR reporting period?

Yes No

9.1.3 Meaningful Use Measure 2 Screen - Clinical Decision Support for EPs scheduled to report Stage 1 in PY 2015

For an EHR reporting period in 2015 only, an EP who is scheduled to participate in Stage 1 in 2015 attests to the following objective and measure:

Objective: Implement one clinical decision support rule relevant to specialty or high clinical priority along with the ability to track compliance with that rule.

Measure: Implement one clinical decision support rule.

Questionnaire 3 of 10

(*) Red asterisk indicates a required field.

Computerized Provider Order Entry (CPOE)

Objective Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.

Measure In order for EPs to meet the objective they must satisfy all of the following measures and/or exclusions below:

Complete the following:

***Patient Records:** Please select whether the data used to support the measure was extracted from ALL patient records or only from patient records maintained using certified EHR technology.

This data was extracted from ALL patient records not just those maintained using certified EHR technology.
 This data was extracted only from patient records maintained using certified EHR technology.

Measure 1- Medication

More than 60 percent of medication orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.

EXCLUSION: Any EP who writes fewer than 100 medication orders during the EHR reporting period may be excluded from the first measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Do you want to claim exclusion for measure 1?

Yes No

Numerator = The number of orders in the denominator recorded using CPOE.

Denominator = Number of medication orders created by the EP during the EHR reporting period.

* **Numerator:** * **Denominator:**

Measure 2-Laboratory

More than 30 percent of laboratory orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.

EXCLUSION: Any EP who writes fewer than 100 laboratory orders during the EHR reporting period may be excluded from the second measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Do you want to claim exclusion for measure 2?

Yes No

Numerator: The number of orders in the denominator recorded using CPOE.

Denominator: Number of laboratory orders created by the EP during the EHR reporting period.

* **Numerator:** * **Denominator:**

Measure 3-Radiology

More than 30 percent of radiology orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.

EXCLUSION: Any EP who writes fewer than 100 radiology orders during the EHR reporting period may be excluded from the third measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Do you want to claim exclusion for measure 2?

Yes No

Numerator = The number of orders in the denominator recorded using CPOE.

Denominator = Number of radiology orders created by the EP during the EHR reporting period.

* **Numerator:** * **Denominator:**

All fields must be completed unless the exclusion was responded to with 'Yes', in that case no other field is required and the EP should be allowed to continue to the next measure.

The following details other requirements of this screen:

EP Meaningful Use Modified Stage 2 User Manual for PY 2015

- The Numerator and Denominator must be a whole number
- The Numerator should be less than or equal to the Denominator
- If not excluded, the EP must meet the >60% threshold, N/D > 60% for Measure 1
- If not excluded, the EP must meet the >30% threshold, N/D > 30% for Measures 2 and 3
- If an EP responds Yes to the exclusion then they have met the measure threshold

Please note that selecting 'Previous' prior to saving will result in the data on the current screen not being saved. However, if the user clicks on the 'Next' button without clicking on the 'Save' button the data entered on the screen will be saved.

9.1.5 Meaningful Use Measure 3 Screen - CPOE for EPs scheduled to report Stage 1 MU in PY 2015

For an EHR reporting period in 2015 only, an EP who is scheduled to participate in Stage 1 in 2015 have the following measure and exclusion alternatives:

- Alternate Measure 1: For Stage 1 providers in 2015, more than 30 percent of all unique patients with at least one medication in their medication list seen by the EP during the EHR reporting period have at least one medication order entered using CPOE; or more than 30 percent of medication orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.
- Alternate Exclusion for Measure 2: Providers scheduled to be in Stage 1 in 2015 may claim an exclusion for measure 2 (laboratory orders) of the Stage 2 CPOE objective for an EHR reporting period in 2015.
- Alternate Exclusion for Measure 3: Providers scheduled to be in Stage 1 in 2015 may claim an exclusion for measure 3 (radiology orders) of the Stage 2 CPOE objective for an EHR reporting period in 2015.

- This data was extracted from ALL patient records not just those maintained using certified EHR technology.
 This data was extracted only from patient records maintained using certified EHR technology.

* Please select the measure for which you are reporting:

Measure 1-Medication

More than 30 percent of all unique patients with at least one medication in their medication list seen by the EP during the EHR reporting period have at least one medication order entered using CPOE; or

More than 30 percent of medication orders created by the EP during the EHR reporting period, during the EHR reporting period, are recorded using computerized provider order entry.

EXCLUSION: Any EP who writes fewer than 100 medication orders during the EHR reporting period may be excluded from the first measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

Numerator = The number of patients in the denominator that have at least one medication ordered using CPOE.

Denominator = Number of unique patients with at least one medication in their medication list seen by the EP during the EHR reporting period.

* Numerator : * Denominator :

Measure 2-Laboratory

More than 30 percent of laboratory orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.

EXCLUSION: Any EP who writes fewer than 100 laboratory orders during the EHR reporting period may be excluded from the second measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Do you want to claim exclusion for measure 2?

Yes No

ALTERNATE EXCLUSION: Providers scheduled to be in Stage 1 in 2015 may claim an exclusion for measure (laboratory orders) of the Stage 2 CPOE objective for an EHR reporting period in 2015. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Do you want to claim the alternate exclusion for measure 2?

Yes No

Numerator: The number of orders in the denominator recorded using CPOE.

Denominator: Number of laboratory orders created by the EP during the EHR reporting period.

* Numerator : * Denominator :

Measure 3-Radiology

More than 30 percent of radiology orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.

EXCLUSION: Any EP who writes fewer than 100 radiology orders during the EHR reporting period may be excluded from the second measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Do you want to claim the exclusion for Measure 3?

Yes No

ALTERNATE EXCLUSION: Providers scheduled to be in Stage 1 in 2015 may claim an exclusion for measure (radiology orders) of the Stage 2 CPOE objective for an EHR reporting period in 2015. Exclusion from this measure does not prevent an EP from achieving meaningful use.

*Do you want to claim the alternate exclusion for measure 3?

Yes No

Numerator = The number of orders in the denominator recorded using CPOE.

Denominator = Number of radiology orders created by the EP during the EHR reporting period.

Numerator : 33 * **Denominator** : 100

Questionnaire 6 of 10

(*) Red asterisk indicates a required field.

Patient-Specific Education

Objective: Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.

Measure: Patient-specific education resources identified by Certified EHR Technology are provided to patients for more than 10 percent of all unique patients with office visits seen by the EP during the EHR reporting period.

Complete the following information:

EXCLUSION : Any EP who has no office visits during the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

ALTERNATE EXCLUSION : An EP may claim an exclusion for the measure of the Stage 2 Patient-Specific Education objective if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1 but did not intend to select the Stage 1 Patient-Specific Education menu objective. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

Numerator = Number of patients in the denominator who were provided patient specific education resources identified by the Certified EHR Technology.

Denominator = Number of unique patients with office visits seen by the EP during the EHR reporting period.

* Numerator : 11 * Denominator : 100

Questionnaire 7 of 10

(*) Red asterisk indicates a required field.

Medication Reconciliation

Objective: The EP who receives a patient from another setting of care or provider of care or believes an encounter is relevant should perform medication reconciliation.

Measure: The EP performs medication reconciliation for more than 50 percent of transitions of care in which the patient is transitioned into the care of the EP.

Complete the following information:

* Please select whether the data used to support the measure was extracted from ALL patient records or only from patient records maintained using certified EHR technology.

This data was extracted from ALL patient records not just those maintained using certified EHR technology.
 This data was extracted only from patient records maintained using certified EHR technology.

EXCLUSION: Any EP who was not the recipient of any transitions of care during the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

Numerator = The number of transitions of care in the denominator where medication reconciliation was performed.

Denominator = Number of transitions of care during the EHR reporting period for which the EP was the receiving party of the transition.

* Numerator: 51 * Denominator: 100

Questionnaire 8 of 10
(*) Red asterisk indicates a required field.

Patient Electronic Access (VDT)

Objective Provide patients the ability to view online, download, and transmit their health information within 4 business days of the information being available to the EP.

Measure In order for EPs to meet the objective they must satisfy all of the following measures and/or exclusions below:

Measure 1 - Provide timely online access to health information:
More than 50 percent of all unique patients seen by the EP during the EHR reporting period are provided timely access to view online, download, and transmit to a third party their health information subject to the EP's discretion to withhold certain information.

Measure 2 - Patient Accessed health information:
At least one patient seen by the EP during the EHR reporting period (or patient-authorized representative) views, downloads or transmits to a third party his or her health information during the EHR reporting period.

Complete the following:

EXCLUSION: Any EP who neither orders nor creates any of the information listed for inclusion as part of the measures except for "Patient Name" and "Provider's name" and office contact information may be excluded from both measures. Exclusion from the measures does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?
 Yes No

Measure 1 - Provide timely online access to health information:
More than 50 percent of all unique patients seen by the EP during the EHR reporting period are provided timely access to view online, download, and transmit to a third party their health information subject to the EP's discretion to withhold certain information.

Complete the following:

Numerator = The number of patients in the denominator who have access to view online, download and transmit their health information within 4 business days after the information is available to the EP.
Denominator = Number of unique patients seen by the EP during the EHR reporting period.

* Numerator: * Denominator:

Measure 2 - Patient Accessed health information:
At least one patient seen by the EP during the EHR reporting period (or patient-authorized representative) views, downloads or transmits to a third party his or her health information during the EHR reporting period.

EXCLUSION: Any EP who conducts 50 percent or more of his or her patient encounters in a county that does not have 50 percent or more of its housing units with 4Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period may be excluded from the second measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Do you want to claim exclusion for measure 2?
 Yes No

Numerator = The number of patients in the denominator (or patient-authorized representative) who view, download, or transmit to a third party their health information.
Denominator = Number of unique patients seen by the EP during the EHR reporting period.

* Numerator: * Denominator:

Meaningful Use Measure 10 of 10

Public Health Measure Reporting Objective:
The EP is in active engagement with a public health agency to submit electronic public health data from CEHRT except where prohibited and in accordance with applicable law and practice.

Public Health Measure Reporting Selection

Measure Reporting Instructions:

EPs must report on a total of two (2) Public Health Measures to meet the Measure 10 objective for meaningful use. Exclusions cannot be used to count towards meeting the required two (2) measures. This means that beginning in 2015, an EP would need to:

- Attest to TWO total Public Health Measures for which the EP can meet the measure successfully;
- Attest to Specialized Registry Reporting for Public Health Registry Reporting if the EP reports to TWO or more different specialized registries; OR
- Attest to all three (3) Public Health Measures, counting exclusions

Please select the Public Health Measures for which you are attesting according to the following guidelines:

1. If you are attesting to meet two (2) Public Health Measures without claiming exclusion, you may select the two (2) total Public Health Measures from the list below.
2. If you are attesting to Public Health Measure 3 and are reporting to at least two (2) different specialized registries, you may select just the one (1) Public Health Measure from the list below.
3. If you cannot meet at least two (2) of the Public Health Measures below without claiming an exclusion then you must select all three (3) of the Public Health Measures below or click the 'Select All' link below and attest to either meeting the measure or the exclusion of the public health measure for all three (3) Public Health Measures below.

EPs must report on a total of one (1) public health reporting measure for Stage 1 in program year 2015. This means that, an EP would need to:

- Attest to ONE Public Health Measure for which the EP can meet the measure successfully; OR
- Attest to all three (3) Public Health Measures, counting exclusions

Public Health Measures should be selected according to the following guidelines:

1. If you are attesting to meet one (1) Public Health Measure without claiming an exclusion, you may select the one (1) Public Health Measures from the list below.
2. If you cannot meet at least one (1) of the Public Health Measures below without claiming an exclusion then you must select all three (3) of the Public Health Measures below or click the 'Select All' link below and attest to either meeting the measure or the exclusion of the measure for all three (3) Public Health Measures below.

Navigation:

Logout Button – Returns the EP to the login page

Previous button – will not save the data selected and return the EP to the MU Core Measure 13 screen.

Next button – will save the data to the database if no errors are present. This data will be updatable until the attestation has been completed by the EP. The EP will be directed to the first MU Menu Measure screen they selected after all errors are resolved.

9.3.1 Meaningful Use Measure 10-1 Screen - Immunization Registry Reporting

Questionnaire 1 of 3

(*) Red asterisk indicates a required field.
Immunization Registry Reporting

Measure: The EP is in active engagement with a public health agency to submit immunization data.

The term "active engagement" may be demonstrated by any of the following options:

- * **Active Engagement Option 1 - Completed Registration to Submit Data:** The EP registered to submit data with the PHA to which the information is being submitted; registration was completed within 60 days after the start of the EHR reporting period; and the EP, eligible hospital, or CAH is awaiting an invitation from the PHA to begin testing and validation. This option allows providers to meet the measure when the PHA has limited resources to initiate the testing and validation process. Providers that have registered in previous years do not need to submit an additional registration to meet this requirement for each EHR reporting period.
- * **Active Engagement Option 2 - Testing and Validation:** The EP is in the process of testing and validation of the electronic submission of data. Providers must respond to requests from the PHA within 30 days; failure to respond twice within an EHR reporting period would result in that provider not meeting the measure.
- * **Active Engagement Option 3 - Production:** The EP has completed testing and validation of the electronic submission and is electronically submitting production data to the PHA.

Complete the following:

EXCLUSION 1 - Any EP who does not administer any immunizations to any of the populations for which data is collected by its jurisdiction's immunization registry or immunization information system during the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?
 Yes No

EXCLUSION 2 - Any EP who operates in a jurisdiction for which no immunization registry or immunization information system is capable of accepting the specific standards required to meet the CEHRT definition at the start of the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?
 Yes No

EXCLUSION 3 - Any EP who operates in a jurisdiction where no immunization registry or immunization information system has declared readiness to receive immunization data from the EP the start of the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?
 Yes No

* Is the EP actively engaged with a public health agency to submit immunization data?
 Yes No

* Please indicate the active engagement option that best describes how you met the measure:

- Active Engagement Option 1 - Completed Registration to Submit Data:** The EP has registered to submit data with the PHA to which the information is being submitted. The EP's registration was completed within 60 days after the start of the EHR reporting period and the EP is awaiting an invitation from the PHA to begin testing and validation. EPs that have registered in previous years do not need to submit an additional registration to meet this requirement for each EHR reporting period.
- Active Engagement Option 2 - Testing and Validation:** The EP is in the process of testing and validation of the electronic submission of data. Providers must respond to requests from the PHA within 30 days; failure to respond twice within an EHR reporting period would result in that provider not meeting the measure.
- Active Engagement Option 3 - Production:** The EP has completed testing and validation of the electronic submission and is electronically submitting production data to the PHA.

9.3.2 Meaningful Use Measure 10-1 Screen - Immunization Registry Reporting for EPs scheduled to report Stage 1 MU in PY 2015

For an EHR reporting period in 2015 Stage 1 only, an EP who is scheduled to participate in Stage 1 in 2015 have the following exclusion alternative:

- **Alternate Exclusion:** An EP may claim an exclusion for the Stage 2 Immunization Registry Reporting Measure if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1 but did not intend to select the Stage 1 Immunization Registry Reporting Measure.

A left sidebar contains a menu with items like 'CMS/NLR', 'Meaningful Use Questionnaire', and 'Manual'. The main content area is titled 'Questionnaire 3 of 3' and contains the following text:

(*) Red asterisk indicates a required field.

Specialized Registry Reporting

Measure: The EP is in active engagement to submit data to a specialized registry.

The term 'active engagement' may be demonstrated by any of the following options:

- **Active Engagement Option 1 - Completed Registration to Submit Data:** The EP registered to submit data with the PHA to which the information is being submitted; registration was completed within 60 days after the start of the EHR reporting period; and the EP, eligible hospital, or CAH is awaiting an invitation from the PHA to begin testing and validation. This option allows providers to meet the measure when the PHA has limited resources to initiate the testing and validation process. Providers that have registered in previous years do not need to submit an additional registration to meet this requirement for each EHR reporting period.
- **Active Engagement Option 2 - Testing and Validation:** The EP is in the process of testing and validation of the electronic submission of data. Providers must respond to requests from the PHA within 30 days; failure to respond twice within an EHR reporting period would result in that provider not meeting the measure.
- **Active Engagement Option 3 - Production:** The EP has completed testing and validation of the electronic submission and is electronically submitting production data to the PHA.

Complete the following information:

EXCLUSION 1 - Any EP who does not diagnose or treat any disease or condition associated with or collect relevant data that is required by a specialized registry in their jurisdiction during the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

EXCLUSION 2 - Any EP who operates in a jurisdiction for which no public health agency is capable of accepting electronic registry transactions in the specific standards required to meet the CEHRT definition at the start of the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

EXCLUSION 3 - Any EP who operates in a jurisdiction where no specialized registry for which the EP is eligible has declared readiness to receive electronic case reporting data at the start of the EHR reporting period may be excluded from the measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

ALTERNATE EXCLUSION - An EP may claim an exclusion for the Stage 2 Specialized Registry Reporting if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1 but did not intend to select the Stage 1 Specialized Registry Reporting Measure. Exclusion from this measure does not prevent an EP from achieving meaningful use.

* Does this exclusion apply to you?

Yes No

* Is the EP actively engaged to submit data to a specialized registry?

Yes No

*Please indicate the active engagement option that best describes how you met the measure:

Active Engagement Option 1-Completed Registration to Submit Data: The EP has registered to submit data with the PHA to which the information is being submitted. The EP's registration was completed within 60 days after the start of the EHR reporting period and the EP is awaiting an invitation from the PHA to begin testing and validation. EPs that have registered in previous years do not need to submit an additional registration to meet this requirement for each EHR reporting period.

Active Engagement Option 2 - Testing and Validation: The EP is in the process of testing and validation of the electronic submission of data. Providers must respond to requests from the PHA within 30 days; failure to respond twice within an EHR reporting period would result in that provider not meeting the measure.

Active Engagement Option 3 - Production: The EP has completed testing and validation of the electronic submission and is electronically submitting production data to the PHA.

* Please select how many Specialized Registries for which you are actively engaged to submit data:

1
 2

* Name of Specialized Registry 1:

9.4 Clinical Quality Measure Selection Screen

Beginning in 2014, all providers regardless of their stage of meaningful use will report on CQMs in the same way. EPs will report 9 of 64 CQMs covering at least 3 key health care policy domains recommended by the Department of Health and Human Services' National Quality Strategy (NQS).

Questionnaire

Instructions:

EPs for any MU stage will be required to submit 9 out of 64 CQMs using CEHRT and must select the CQMs from at least 3 key health care policy domains recommended by the Department of Health and Human Services' National Quality Strategy (NQS) seen below. EPs are expected to select the CQMs that best apply to their scope of practice and/or unique patient population.

Please select 9 or more CQMs listed below using the following guidelines:

- Select the option for the CMS recommended 9 core CQM set for adults.
- Select the option for the CMS recommended 9 core CQM set for children.
- Select 9 CQMs, if you have patient data for all 9 CQMs that cover at least 3 of the NQS domains listed below.
- Select more than 9 CQMs, if you have patient data for 9 CQMs but they do not cover at least 3 NQS domains. Select the 9 CQMs that have patient data and any additional CQMs necessary to cover at least 3 of the NQS domains listed below. You may enter "0" for the additional CQMs for which you do not have patient data.
- If you have no patient data for all 64 CQMs then you may select any 9 CQMs from at least 3 of the NQS domains listed below. You may enter "0" for the CQMs for which you do not have patient data.

Recommended Core set selection options:

Check this box to select the 9 core CQM set for adults.

Check this box to select the 9 core CQM set for Children.

If you are not selecting one of the recommended core CQM sets or if you want to choose additional CQMs for which you have data, please make your selection(s) below:

EPs are expected to select the CQMs that best apply to their scope of practice and/or unique patient population. CQMs will be submitted on an aggregate basis reflective of all patients without regard to payer.

CMS does not requiring the submission of a core set of CQMs, but identify two recommended core sets, one for adults and one for children, that CMS encourages EPs to report to the extent those CQMs are applicable to an EP's scope of practice and patient population.

- Recommended Adult CQM set includes the following CQMs: CMS165, CMS156, CMS138, CMS166, CMS2, CMS68, CMS69, CMS50, CMS90
- Recommended Children CQM set includes the following CQMs: CMS146, CMS155, CMS153, CMS126, CMS117, CMS154, CMS136, CMS2, CMS75

If Providers are not selecting one of the recommended core sets then they should select 9 or more CQMs using the following guidelines:

- Select the option for the CMS recommended 9 core CQM set for adults.
- Select the option for the CMS recommended 9 core CQM set for children.
- Select 9 CQMs, if you have patient data for all 9 CQMs that cover at least 3 of the NQS domains listed below.
- Select more than 9 CQMs, if you have patient data for 9 CQMS but they do not cover at least 3 NQS domains. Select the 9 CQMS that have patient data and

any additional CQMS necessary to cover at least 3 of the NQS domains listed below. You may enter “0” for the additional CQMS for which you do not have patient data.

- If you have no patient data for all 64 CQMs then you may select any 9 CQMS from at least 3 of the NQS domains listed below. You may enter “0” for the CQMs for which you do not have patient data.

Fields with multiple definitions for population criteria or numerators have tool tips associated to assist the provider in attesting their numbers correctly. The tool tips can be viewed by holding the mouse over the numerator field. The following tool tips are associated with this screen:

Navigation:

Logout Button – Returns the EP to the login page

Previous button – will not save the data selected and return the EP to the previous screen.

Save & Continue button – will save the data selected. This data will be updatable until the attestation has been completed by the EP. The EP will be directed to the first Clinical Quality Measure screen they selected

All fields must be entered to continue to the next measure screen. The responses entered must be reported from your certified EHR reporting for the EHR reporting period even if the report states zero. The following details the other requirements of this screen:

- Please enter a numerator: 0 is acceptable if that was reported by the EHR technology
- Numerator must be a whole number
- Please enter a denominator: 0 is acceptable if there is no measure population
- Denominator must be a whole number
- The numerator should be less than or equal to the denominator
- Please enter a performance rate: 0 is acceptable if that was reported by the EHR technology
- Performance rate is entered as a whole number to reflect a percentage

Please note that selecting 'Previous' prior to saving will result in the data on the current screen not being saved. However, if the user clicks on the 'Next' button without clicking on the 'Save' button the data entered on the screen will be saved.

Navigation:

Previous button – will not save the data selected and return the EP to the previous screen.

Next button- automatically saves information entered in the fields and moved to the next screen.

Save button– will save the data selected. This data will be updatable until the attestation has been completed by the EP.

Cancel button- will clear the information entered into the fields out while remaining on the same page.

9.4.2 Clinical Quality Measure Screen 2 – CMS ID 66

The screenshot shows the Wyoming Department of Health Healthcare Financing WY Medicaid EHR Incentive Payments system. The main content area displays 'Questionnaire 2 of 64' for CMS ID 66. The form includes a title 'Functional status assessment for knee replacement', a description, and fields for Numerator, Denominator, Performance Rate, and Exclusion. The form is titled 'NOS Domain: Patient and Family Engagement'. The footer contains contact information and copyright details.

All fields must be entered to continue to the next measure screen. The responses entered must be reported from your certified EHR reporting for the EHR reporting period even if the report states zero. The following details the other requirements of this screen:

- Please enter a numerator: 0 is acceptable if that was reported by the EHR technology
- Numerator must be a whole number
- Please enter a denominator: 0 is acceptable if there is no measure population
- Denominator must be a whole number
- The numerator should be less than or equal to the denominator
- Please enter a performance rate: 0 is acceptable if that was reported by the EHR technology
- Performance rate is entered as a whole number to reflect a percentage
- Please enter an exclusion: 0 is acceptable if that was reported by the EHR technology
- Exclusions must be a whole number greater than or equal to 0

Please note that selecting 'Previous' prior to saving will result in the data on the current screen not being saved. However, if the user clicks on the 'Next' button without clicking on the 'Save' button the data entered on the screen will be saved.

Navigation:

Previous button – will not save the data selected and return the EP to the previous screen.

Next button- automatically saves information entered in the fields and moved to the next screen.

Save button– will save the data selected. This data will be updatable until the attestation has been completed by the EP.

Cancel button- will clear the information entered into the fields out while remaining on the same page.

9.4.13 Clinical Quality Measure Screen 13- CMS ID 138

All fields must be entered to continue to the next measure screen. The responses entered must be reported from your certified EHR reporting for the EHR reporting period even if the report states zero. The following details the other requirements of this screen:

- Please enter a numerator: 0 is acceptable if that was reported by the EHR technology
- Numerator must be a whole number
- Please enter a denominator: 0 is acceptable if there is no measure population
- Denominator must be a whole number
- The numerator should be less than or equal to the denominator
- Please enter a performance rate: 0 is acceptable if that was reported by the EHR technology
- Performance rate is entered as a whole number to reflect a percentage
- Please enter an exclusion: 0 is acceptable if that was reported by the EHR technology
- Exclusions must be a whole number greater than or equal to 0

Please note that selecting 'Previous' prior to saving will result in the data on the current screen not being saved. However, if the user clicks on the 'Next' button without clicking on the 'Save' button the data entered on the screen will be saved.

Navigation:

Previous button – will not save the data selected and return the EP to the previous screen.

Next button- automatically saves information entered in the fields and moved to the next screen.

Save button– will save the data selected. This data will be updatable until the attestation has been completed by the EP.

Cancel button- will clear the information entered into the fields out while remaining on the same page.

Objective text	Description	Data Entered	Selection
Protect electronic protected health information (ePHI) created or maintained by the CEHRT through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of data stored in Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the EP's risk management process.	Yes	Edit
Implement one clinical decision support rule relevant to specialty or high clinical priority along with the ability to track compliance with that rule.	Implement one Clinical Decision Support Rule	Yes	Edit
Implement one clinical decision support rule relevant to specialty or high clinical priority along with the ability to track compliance with that rule.	The EP enabled and implemented the functionality for drug-drug and drug allergy interaction checks for the entire EHR reporting period.	Yes	Edit
Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 30 percent of all unique patients with at least one medication in their medication list seen by the EP during the EHR reporting period have at least one medication order entered using CPOE or 	Numerator = 31 Denominator = 100	Edit
Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 30 percent of laboratory orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.	Excluded	Edit
Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 30 percent of radiology orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.	Excluded	Edit
Generate and transmit permissible prescriptions electronically (eRx).	More than 40 percent of all permissible prescriptions written by the EP are transmitted electronically using Certified EHR Technology.	Numerator = 41 Denominator = 100	Edit
The EP who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary care record for each transition of care or referral.	The EP that transitions or refers their patient to another setting of care or provider of care that -- (1) use CEHRT to create a summary of care record; and (2) electronically transmits such summary to a receiving provider for more than 10 percent of transitions of care and referrals.	Numerator = 101 Denominator = 1000	Edit
Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	Patient-specific education resources identified by Certified EHR Technology are provided to patients for more than 10 percent of all unique patients with office visits seen by the EP during the EHR reporting period.	Numerator = 11 Denominator = 100	Edit
The EP who receives a patient from another setting of care or provider of care or believes an encounter is relevant should perform medication reconciliation.	The EP performs medication reconciliation for more than 50 percent of transitions of care in which the patient is transitioned into the care of the EP.	Numerator = 51 Denominator = 100	Edit
Provide patients the ability to view online, download, and transmit their health information within 4 business days of the information being available to the EP.	More than 50 percent of all unique patients seen by the EP during the EHR reporting period are provided timely access to view online, download, and transmit to a third party their health information subject to the EP's discretion to withhold certain information.	Excluded	Edit
Provide patients the ability to view online, download, and transmit their health information within 4 business days of the information being available to the EP.	At least one patient seen by the EP during the EHR reporting period (or patient-authorized representative) views, downloads or transmits to a third party his or her health information during the EHR reporting period.	Excluded	Edit
Use secure electronic messaging to communicate with patients on relevant health information.	During the EHR reporting period, the capability for patients to send and receive a secure electronic message with the EP was fully enabled.	Yes	Edit

Questionnaire 5 of 15

(*) Red asterisk indicates a required field.

Objective: Maintain active medication list.

Measure: More than 80% of all unique patients seen by the EP have at least one entry (or an indication that the patient is not currently prescribed any medication) recorded as structured data.
Complete the following information:

Numerator = Number of patients in the denominator who have a medication (or an indication that the patient is not currently prescribed any medication) recorded as structured data.
Denominator = Number of unique patients seen by the EP during the EHR reporting period.

* Numerator : 88 * Denominator : 101
* Enter the number of unique patients listed within the numerator above as patients that are not currently prescribed any medication as structured data : 11

Please ensure the following documentation is uploaded to expedite your approval process:

1. Patient volume methodology; please explain and show calculations
2. EHR documentation: license, invoice or contract (something binding clinic/provider to vendor)
3. If more than one provider in a practice, please provide information concerning number of licenses acquired from EHR vendor
4. Screen shot of the EHR version is helpful to the Wyoming Incentive Staff
5. If available, a vendor letter is helpful as well, however, this cannot be used by itself for EHR documentation

Attestation Statements

You are about to submit your attestation for the Wyoming Medicaid EHR Incentive Program

Please check the box next to each statement below to attest, and read the following information before submitting your attestation:

The information submitted for CQMs was generated as output from an identified certified EHR technology.

The information submitted is accurate to the knowledge and belief of the EP.

The information submitted is accurate and complete for numerators, denominators, exclusions and measures applicable to the EP.

The information submitted includes information on all patients to whom the measure applies.

If a zero was reported in the denominator of a measure then the EP did not care for any patients in the denominator population during the EHR reporting period.

As a meaningful EHR user at least 50% of my patient encounters during the EHR reporting period occurred at the practice location given in my attestation information and is equipped with certified EHR technology.

This is to certify that the foregoing information is true, accurate and complete. I understand that the Medicaid EHR Incentive payments submitted under this provider number will be from Federal funds, and any falsification, or any concealment of a material fact may be prosecuted under Federal and State laws.

I hereby agree to keep such records as are necessary to demonstrate that I met all Wyoming EHR Incentive Program requirements and to furnish those records to the Wyoming Department Health, the U.S. Department of Health and Human Services or contractor(s) acting on their behalf. I understand that I must retain all support documentation for incentive program requirements, including but not limited to that pertaining to patient volume determination, for a minimum of six years from the last year of my participation in the incentive program, and will make such information available for audit(s) conducted by the Wyoming Medicaid, the U.S. Department of Health and Human Services, or contractors acting on their behalf.

No EHR incentive payment may be paid unless this application is completed as required by existing law and regulations. Failure to provide required information will result in delay of payment or may result in denial of EHR incentive payment. Failure to furnish requested information of documents post incentive payment will result in the issuance of an overpayment demand letter, followed by recoupment procedures.

Anyone who misrepresents or falsifies essential information to receive payment from Federal funds requested by this application may, upon conviction, be subject to fine and imprisonment under applicable Federal laws. Information from this Wyoming Medicaid EHR Incentive Program application and subsequently submitted information and documents may be given to the Internal Revenue Service, private collection agencies, and consumer reporting agencies in connection with recoupment of any overpayment made. Appropriate disclosures may be made to other federal, state, local, foreign government agencies, private business entities, and individual providers of care, on matters relating to entitlement, fraud, program abuse, program integrity, and civil and criminal litigation related to the operation of the EHR Incentive Program.

I understand that it is mandatory that I inform the Wyoming Department of Health if I believe that I have been overpaid under the EHR Incentive Program. I certify that I am not receiving Medicaid incentive funds from any other state or commonwealth and have not received an EHR incentive payment from the Wyoming Department of Health and Human Services for attested participation year.

I shall retain documentation for a minimum of six years that demonstrates acquisition, purchase, or access to certified EHR technology prior to the incentive. The documentation must show a LEGAL or FINANCIAL COMMITMENT to the adoption, implementation, or upgrade to certified EHR technology [naming the product(s) and version(s)]. Such documentation may include but is not limited to: an invoice and receipt for payment; purchase agreement; license agreement; binding contract (signed by both parties). Should the documentation not specify the certified EHR technology product (product name and version), a letter from the certified EHR technology vendor that clarifies the product name and version may be retained with the documentation as a SUPPLEMENT. Such a letter will not be regarded as stand-alone support documentation.

I understand that to qualify for an EHR incentive payment, a Medicaid Eligible Professional must not be hospital-based, defined as any provider who furnishes 90 percent or more of their Medicaid services in the following two place of service (POS) codes for HIPAA standard transactions: 21 – Inpatient Hospital, 23 – Emergency Room; I hereby certify that I am not hospital-based, and that this attestation can be supported by data from the year preceding this participation year. Also, if I have indicated reassignment of my incentive payment, I hereby certify that the reassignment of my incentive payment is to an employer or entity with which I have a contractual arrangement, consistent with all rules governing reassignments including 42 CFR PART 424 SUBPART F. By requesting a reassignment of incentive payment, I understand that I am attesting that such reassignment is consistent with applicable Medicaid laws, rules, and regulations, including, without limitation, those related to fraud, waste and abuse.

Meaningful Use Core Measure Summary (Year 3 Attestation / Program Year 2015)

Summary of Core Meaningful Use Measures

Objective	Measure	Entered	Status
Protect electronic protected health information (ePHI) created or maintained by the CEHRT through the implementation of appropriate technical capabilities.	Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of data stored in Certified EHR Technology in accordance with requirements in 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the EP's risk management process.	Yes	Accepted
Implement one clinical decision support rule relevant to specialty or high clinical priority along with the ability to track compliance with that rule.	Implement one Clinical Decision Support Rule	Yes	Accepted
Implement one clinical decision support rule relevant to specialty or high clinical priority along with the ability to track compliance with that rule.	The EP enabled and implemented the functionality for drug-drug and drug allergy interaction checks for the entire EHR reporting period.	Yes	Accepted
Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 30 percent of all unique patients with at least one medication in their medication list seen by the EP during the EHR reporting period have at least one medication order entered using CPOE or	31%	Accepted
Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 30 percent of laboratory orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.	Excluded 2	Accepted
Use computerized provider order entry for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.	More than 30 percent of radiology orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.	Excluded 2	Accepted
Generate and transmit permissible prescriptions electronically (eRx).	More than 40 percent of all permissible prescriptions written by the EP are transmitted electronically using Certified EHR Technology.	41%	Accepted
The EP who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care or referral.	The EP that transitions or refers their patient to another setting of care or provider of care that -- (1) use CEHRT to create a summary of care record; and (2) electronically transmits such summary to a receiving provider for more than 10 percent of transitions of care and referrals.	10.1%	Accepted
Use clinically relevant information from Certified EHR Technology to identify patient-specific education resources and provide those resources to the patient.	Patient-specific education resources identified by Certified EHR Technology are provided to patients for more than 10 percent of all unique patients with office visits seen by the EP during the EHR reporting period.	11%	Accepted
The EP who receives a patient from another setting of care or provider of care or believes an encounter is relevant should perform medication reconciliation.	The EP performs medication reconciliation for more than 50 percent of transitions of care in which the patient is transitioned into the care of the EP.	51%	Accepted
Provide patients the ability to view online, download, and transmit their health information within 4 business days of the information being available to the EP.	More than 50 percent of all unique patients seen by the EP during the EHR reporting period are provided timely access to view online, download, and transmit to a third party their health information subject to the EP's discretion to withhold certain information.	Excluded	Accepted
Provide patients the ability to view online, download, and transmit their health information within 4 business days of the information being available to the EP.	At least one patient seen by the EP during the EHR reporting period (or patient-authorized representative) views, downloads or transmits to a third party his or her health information during the EHR reporting period.	Excluded	Accepted
Use secure electronic messaging to communicate with patients on relevant health information.	During the EHR reporting period, the capability for patients to send and receive a secure electronic message with the EP was fully enabled.	Yes	Accepted

9.11.3 Clinical Quality Measures Summary – Post Attestation

The screenshot displays the Wyoming Department of Health Healthcare Financing website. The page title is 'Meaningful Use Clinical Quality Measures Summary (Year 3 Attestation / Program Year 2015)'. A navigation menu on the left includes options like 'CMS/NLR', 'Meaningful Use Questionnaire', and 'Post-Attestation Measure Summary'. The main content area features a table titled 'Summary Of Core Clinical Quality Measures' with three columns: Title, Description, and Status. The table lists 11 measures, all of which are marked as 'Accepted'. At the bottom of the page, there are links for 'Contact Us', 'Privacy Policy', and 'About Wyoming', along with a copyright notice for 2011 State of Wyoming.

Title	Description	Status
Functional status assessment for complex chronic conditions	Percentage of patients aged 65 years and older with heart failure who completed initial and follow-up patient-reported functional status assessments	Accepted
Use of High-Risk Medications in the Elderly	Percentage of patients 66 years of age and older who were ordered high-risk medications. Two rates are reported. a. Percentage of patients who were ordered at least one high-risk medication. b. Percentage of patients who were ordered at least two different high-risk medications.	Accepted
Documentation of Current Medications in the Medical Record	Percentage of specified visits for patients aged 18 years and older for which the eligible professional attests to documenting a list of current medications to the best of his/her knowledge and ability. This list must include ALL prescriptions, over-the-counters, herbals, and vitamin/mineral/dietary (nutritional) supplements AND must contain the medications' name, dosage, frequency and route of administration.	Accepted
Closing the referral loop: receipt of specialist report	Percentage of patients with referrals, regardless of age, for which the referring provider receives a report from the provider to whom the patient was referred.	Accepted
Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	Percentage of patients aged 18 years and older who were screened for tobacco use one or more times within 24 months AND who received cessation counseling intervention if identified as a tobacco user	Accepted
Preventive Care and Screening: Screening for Clinical Depression and Follow-Up Plan	Percentage of patients aged 12 years and older screened for clinical depression on the date of the encounter using an age appropriate standardized depression screening tool AND if positive, a follow up plan is documented on the date of the positive screen.	Accepted
Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up	Percentage of patients aged 18 years and older with an encounter during the reporting period with a documented calculated BMI during the encounter or during the previous six months AND when the BMI is outside of normal parameters, follow-up plan is documented during the encounter or during the previous 6 months of the encounter with the BMI outside of normal parameters. Normal Parameters: Age 65 years and older BMI >= 23 and < 30 Age 18-64 years BMI >= 18.5 and < 25	Accepted
Use of Imaging Studies for Low Back Pain	Percentage of patients 18-50 years of age with a diagnosis of low back pain who did not have an imaging study (plain X-ray, MRI, CT scan) within 28 days of the diagnosis.	Accepted
Controlling High Blood Pressure	Percentage of patients 18-85 years of age who had a diagnosis of hypertension and whose blood pressure was adequately controlled (<140/90mmHg) during the measurement period.	Accepted

The summary of measures for the Clinical Quality Measures is read only and contains columns for the following information:

Title – gives the title of the measure

Description – gives the detail measure information

Status – indicates if the measure was Accepted or Rejected
